DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-14** are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose or render obvious a support pad for an equine foot, said support pad comprising, in addition to other known elements in the art, a generally triangular frog support formed as one piece with the pad and having a generally planar frog support face, an opposite ground contact face, a rounded tip of the frog support projecting toward said toe end from the heel end of the pad such that said tip is positioned in said central opening and centered on a line drawn from said toe end to said heel end to separate said support pad into equal lateral portions, wherein said tip is surrounded by said central opening toward said toe end and laterally relative to said line. The Slack reference teaches a triangular frog support having a rounded tip; however, this rounded tip of Slack is not positioned in a central opening and centered on a line drawn from said toe end to said heel end to separate said support pad into equal lateral portions. The Sherman reference teaches a support pad with a central opening for ventilation purpose. The combination of Slack in view of Sherman would be hindsighting the present invention because there would be no motivation why one would want to have the rounded tip of Slack be positioned in the central opening of Sherman and be centered on a line drawn from said toe end to said heel end to separate said support pad into equal lateral portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
